## FOR FALL AND WINTER.

THERE are Shoes and Shoes—the same as there are many kinds of everything. But always in every trade, some one man's make becomes the acknowledged best, and takes the lead over all others. This is true of our Shoes.

They are the World's Best.  
Our Prices are the World's Least.

This combination of the greatest superiority of Goods in material, design, style, form, finish and workmanship, combined with the greatest inferiority of price, have raised our FOOTWEAR into this leadership of the Boot and Shoe trade. Thus it is that our competitors and the public, as well as ourselves, speak of—

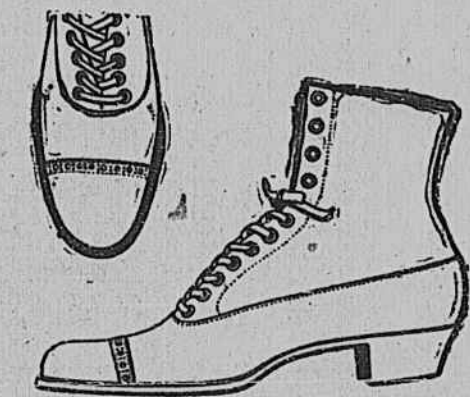

### Battle Axe Shoes, Regina and Autohav Shoes

He is stopping at the Olympia and is amazed at the wonderful change from the Cumberland of 1837 to the flourishing city of today.—Cumberland, [Md.] Evening Times.

The Court of Common Pleas entered upon its Fall session Monday with Judge Watts presiding. The calendar is pretty full, but most of the cases are of little importance to the general public. The most important case is that of James L. Jones as administrator of the estate of Susan V. Jones, against the Charleston & Western Carolina Railway, for damages. This case went to trial Monday morning. The damages asked for is \$16,000. There have been two trials of this case previous to this. The first resulted in a mistrial. In the second the jury gave a verdict of \$1,700; the case was appealed and sent back for trial anew. The jury will probably be kept busy most of the week.

Sometime ago the sinking fund commission compromised with the old Blue Ridge Railroad in the matter of taxes due the State and to the Counties of Anderson and Oconee. The total amount due was \$11,000 and the road offered 50 per cent. as a compromise, which was accepted, and B. L. Abner, attorney, deposited the check with the State Treasurer. The members of the commission now, however, doubt whether or not they have the legal right to accept this compromise without the approval of the General Assembly and the Treasurer will hold the check until a joint resolution is passed confirming the compromise.—Columbia Record.

He will reside at Hillsboro, where one of the Churches is located, about fifty miles north-east of Waco. We regret to lose Bro. Garrett from South Carolina. He is a good preacher, an active pastor, and keeps in close touch with all denominational work. His removal will leave several excellent Churches in the Edisto and Barnwell Associations without a pastor." The wedding was a brilliant social event, there being twenty-four attendants and the church being elaborately decorated. After the ceremony there was a reception at the home of the bride's mother. The Forepaugh & Sells Bros. consolidated shows, on account of a wreck of a part of one of its trains between Augusta and Anderson, did not reach the city until late yesterday morning, and as a consequence there was no street parade. They gave two splendid performances, and at each were greeted by a large audience. The main tent is probably the largest ever brought to this section, and its seating capacity, it is claimed, is 10,000. At the afternoon performance there were few vacant seats. It is the general opinion that the show throughout is one of the best ever seen here. The show attracted to the city one of the largest crowds ever seen on our streets. Everybody seemed to be in a good humor, and good order prevailed throughout the day.

Earle's Bridge, across Seneca river below Portman Shoals, has been completed and the work was passed upon and accepted by the County Commissioners last Thursday. There was some apprehension concerning the foundation of the middle pier, but it was finally concluded that nothing short of the breaking of the dam at Portman would unsettle it, and as this was not thought a probable event, the work was accepted. The weight of the bridge material was also discussed, some of the Board thinking it lighter than specifications agreed upon. The objections were not found tenable, however, and the entire work was accepted and the contract money ordered paid. The Virginia Bridge and Iron Company, of Roanoke, Va., were the contractors, but sublet the contract to George H. Crafts, of Atlanta, Ga.
